Melanie Adcock will go insane after spending several years trying to prove that she does not exist but finds solace on her parents' farm discussing Nietzsche with the cows.

Will Anderson, after a bizarre electrolysis accident leaves him bald and rambling about a possible Beach Boys reunion, will spend eternity in his car outside The Academy.

Remus Badea will continue to spin his beloved tales of Brer rabbit and Brer Fox and the Tar Baby. He will, in fact have a bluebird permanently stapled on his shoulder.

Eleanor Berg will win millions in Vegas, then sadly lose it all after investing her life savings into a fledgling corporation known as "Fake Nostrils R US".

Tony Bravo will make billions of dollars, then buy a gold pedestal so that all the people in the world can line up to individually kiss his feet, whereupon he will spit on them, laugh and dance a jig of superiority (This prediction was written by Mr. A. Bravo)

Monica Brile will be awarded 8 Nobel Prizes, 12 Grammys, 4 Pulitzers and a free meal from Denny's every year on her birthday, but will still have that empty feeling inside.

Jeremy Callner, after having survived a near-fatal condom incident, will go on to blow his pancreas out through the saxophone as a morbid cry for help onstage during the Cleveland Needlepoint and Music Fest 1999.

Eric Chaleff will spend his life in and out of prison after breaking countless restraining orders to keep him away from the homes of Jan Yourist, Frannette Liebow, and Trina Ingebrigtsen.

Carmine Collaro, aka "The Nooch" will be whacked by the Gambino crew after a failed attempt to leave the country with eleven sides of beef under his Armani coat.

Angela Colucci After unsuccessful attempts to achieve monstrous fame and fortune with the bands, "S.W.C. (Sisters With Chainsaws)" and "Salt-N-A-Little More Salt Over Here Here When You Get A Minute", finally will release one solo hit single, "Streets of Naperville", before going into hiding.

August Donley will Tango, Tango, Tango, Tango, Tango all day. Tango all night. Tango 'til he can't see straight. TANGO!!!!

Pheobe Fisher will discover a particularly witty Marmaduke comic and laugh herself, clinically, "Silly".

Ben Ginther will achieve superstardom after penning three classic novels all on his leg cast.

Katy Goldman will roam the country preaching Buddha's word and pummeling all men named "Yitzhak".

Susie Golub will spend four glorious years at Bennington sadly concluding on Graduation Day when she will standup and scream "Bennington"! I got yer Bennington right here, box-o"! She will promptly be expelled.

Michelle Gonzales will be lounging in front of the TV one morning when she will accidentally discover what will go on to become America's favorite taste sensation, "Mmmmmmm! Chocolate-N-Couch Lint".

Erin Gullaksen will become the first Wimp Animal Rights Activist and spend her adult life running around town, throwing water on fur coats.

Kim Jones will go into TV history, starring in 3 multi-E Emmy Winning series, "I Love Kim", "I Love Kim More Than You" and "I Love Her The Most Pally"!

Kristin Jordan will be tragically set ablaze during the closing number of "A Red Hot Celebration II: Redder and Hotter and Did I Mention Redder"?

Ira Murfin after replacing the late Nipsy Russell as America's Sweetheart,----will be assassinated by grape fanatics, instantly becoming a genius.

Emily Salyer in a controversial dance will swallow her head in protest of the government's treatment of her MOM.

Katie Serr, after years of persecution based on the fact that she's a redhead, will write a book called "REDHEADS: We're A Lot Nicer Than One Might Think, Unless You Hit Us Or Something".

Peter Shpiller will awake at age 50 in Ms. Yourist's room bright-eyed and bushy-tailed and ready for Humanities.
