

MEDIA ARTS AT THE ACADEMY

The Academy Media Arts Department introduced the first digital motion picture program for high school students and continues to be at the forefront of teaching storytelling through the mediums of film, animation, and creative writing.

The program includes classes in animation, poetry, fiction, screenwriting, cinematography, and design, as well as fictional, documentary, and experimental video.

Above all, the Media Arts Department focuses on storytelling. The process-based program values workshop, and is designed to hone a student's voice and ideas, and their ability to communicate both to an audience.

All Media Arts students participate in a Fall Show and Winter Festival (juried by professionals within the film industry). Media Arts seniors prepare a final project.
